

JETSTREAM - Switch and Go

Jetstream™ a new dimension in powered air. A complete unit supplied on a Switch & Go™ basis, without the requirement to purchase additional extras, the product comprises: power unit, belt, charger, PVC headpiece, supply hose and flow meter and available with either 4 or 8 hour rechargeable cells. Jetstream™ contains an extra large capacity dust filter for protection from toxic dusts and other particulate hazards, while maintaining high flowrates.
