

The professional user demands quality equipment that will provide years of trouble free service. Our range of hydraulics do just that but at a price to make them economical even for the occasional user. Our jacks are all checked before leaving the factory and cranes are supplied with a test certificate. A range of hydraulics which is comprehensive and suitable, whatever the task.

PP10 - 10 Ton Hydraulic Body Repair

- For repairing dents and creases even in very inaccessible areas
- Huge cost saving in time and labour
- Simple push fit connection of head attachments and extension bars
- High quality seals rated in excess of maximum operating pressure
- Safety bypass valve to protect from overload
- All components plated to prevent rusting
- Whole set is supplied in blowmould plastic case

5513 - Foot Pump

- Complete with hose
- Can be used in conjunction with Kestrel PP10 - 10 ton hydraulic body repair kit
- Recommended air pressure 50-120 psi
- Oil pressure 20,000 psi
- Oil capacity 630cc
- 10 ton capacity

FP15/FP30/FP50 - Floor Presses

All models feature:

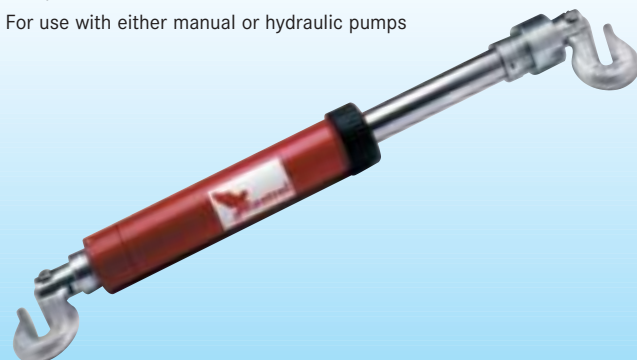

- Heavy duty frames with wide feet for stability
- High quality cylinder and individual pump
- Indispensable for jobs such as straightening, bending, folding, punching etc
- Ideal for the installation and removal of bolts, pins, bearings and axles
- The working table height of all models is adjustable
- Piston retracts automatically when release valve is opened
- All complete with pressure gauge and two blocks for indispensable jobs

	FP15	FP30	FP50
Capacity (Ton)	15	30	50
Ram stroke (mm)	130	180	190
Max. height to table (mm)	674	885	725
Min. height to table (mm)	74	10	25
Table aperture (mm)	126	190	295
Working table width (mm)	545	620	820
Overall height (mm)	1,500	1,835	1,895
Gauge included	Yes	Yes	Yes
Weight (kgs)	103	145	250

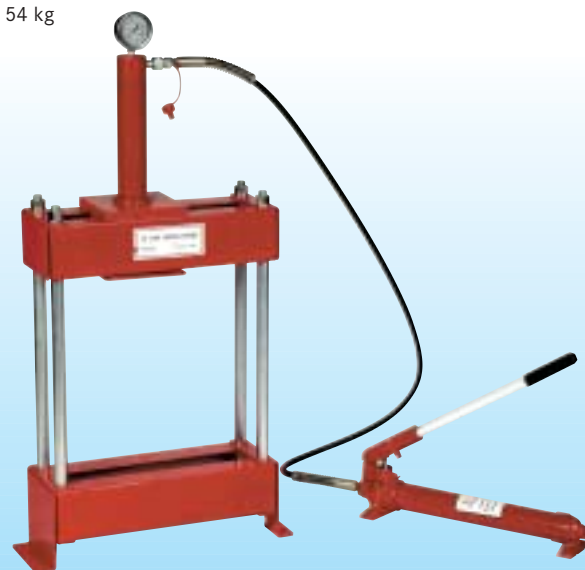

55011061 - Pull Ram

- 5 ton capacity
- Complete with two chain hooks
- For use with either manual or hydraulic pumps

HR390 - 10 Ton Hydraulic Bench Press

- Tough and reliable, high quality industrial press
- Suitable for both automotive and industrial applications
- Includes pressure gauge and angle seats
- Pump type single action
- Capacity 10 ton
- Ram stroke 200mm
- Weight 54 kg

Hydraulic Oil

H01LT - Hydraulic oil 1 Ltr

H05LT - Hydraulic oil 5 Ltr

- High quality fluid suitable for use in all hydraulic jacks and body repair kits etc
- The properties of this hydraulic oil are enhanced by a full additive treatment to minimise corrosion, oxidation, foaming and machinery wear
