

KREBS ELECTRIC AIRLESS SPRAYING EQUIPMENT

Sometimes, due to noise or lack of portability compressors are just not convenient or practical. Our KREBS range overcomes both these by offering a range of top quality Swiss made equipment which ensures excellent performance and a quality finish. Just plug in and off you go. We also offer a vast range of accessories so that you can choose your gun for several applications.

When the demands of the job are constant you need a heavy duty option. With cast aluminium casing this is the professionals hardware. Suitable for all normal spray mediums including airless quality water-based acrylic and latex paints. The motor is mounted at the rear, over the handle for better balance. Unique two piece power transmission with "Universal joint" reduces friction and heat build-up giving considerably extended pump life. Disassembled in seconds for thorough cleaning. Vapour proof switches, units fitted with R6 nozzle.

Additional Accessories & Spares

- **K80806** - Spare paint container with lid
Fits: Krebs 10
- **K90629** - Spare paint container with lid
Fits: Krebs 25,35T,40T,45T
- **K100818** - Round jet nozzle R3
Fits: Krebs 07
- **K90610** - Round jet nozzle R4 for thin liquid i.e. insecticides, disinfectant etc.
Fits: Krebs 10,25,35T,40T,45T
- **K90611** - Round jet nozzle R6 for all normal paints and lacquers.
Fits: Krebs 10,25,35T,40T,45T
- **K90612** - Round jet nozzle R8 for viscous material i.e. rust proofers, distempers etc.
Fits: Krebs 10,25,35T,40T,45T
- **K90614** - Angled extension nozzle
Fits: Krebs 10,25,35T,40T,45T
- **K90615** - Flat fan nozzle F5S with tungsten carbide head. Fits: Krebs 10,25,35T,40T,45T
- **K90617** - Flat fan nozzle F7S with tungsten carbide head, for high output and for water based paints
Fits: Krebs 10,25,35T,40T,45T
- **K90618** - Paint strainer to filter debris and paint solids from your spraying medium
- **K90623** - Viscosity cup for measuring and correcting the paint/thinners mix
- **K90624** - Cavity sealing extension nozzle for injecting "wax oil" and similar liquids
- **K90628** - Power jet nozzle for use with degreasing agents etc. for penetration of grime. Jet length 150 cms approx.
Fits: Krebs 10,25,35T,40T,45T
- **K90630** - Suction tube extension for drawing liquid from larger container or direct from paint can.
Fits: Krebs 25,35T,40T,45T
- **K90857** - Roller attachment
Fits: Krebs 25,35T,40T,45T
- **K91035** - Back tainer 5.5 litre back pack reservoir for painting larger surfaces.
Fits: Krebs 25,35T,40T,45T
- **K10814** - Spare valve set - K07
- **K80820** - Spare valve set - K10
- **K90639** - Spare head set - K25,35T,40T,45T

K07 - 240V Automotive Spray Kit

- Fitted with precision nozzle R3. Comes complete with viscosity cup, paint strainer and spare paint container
- Keeps overspray down to a minimum
- Special tempered steel pump
- Not recommended for water-based paints

K140 - 40 Watt Spray Kit

- Adjustable flow rate knob, super fine atomisation and lightweight handle
- Kit includes Krebs 10 sprayer, 0.4mm nozzle for stains, 0.6mm nozzle for enamels, viscosity testing cup and instruction manual
- Applies latex stains, oil stains, oil enamels and other thin bodied materials
- Not recommended for water-based paints

K25 - 60 Watt Spray Kit

- Well balanced with rear mounted motor
- Unique two piece power transmission with "Universal Joint" reduces friction and heat build-up giving extended pump life
- Disassembles easily in seconds for thorough cleaning
- Fitted with R6 nozzle & special tempered steel pump
- Suitable for all normal spray mediums plus airless quality water-based acrylic and latex paints
- Can be used with suction tube extension, roller attachment, back tainer and most Krebs accessories

Roller attachment not included, see accessories.

K290 - Cordless Sprayer

- Cordless 24V spray gun with accessories
- No trailing cables. Ideal for fences, boats and anywhere away from an electrical supply
- Sprays varnishes, glazes, primers, enamel lacquers, wood impregnating agents, oil, plant-protective agents, insecticides
- Kit includes K25TC cordless spray gun 24V, flat fan nozzle F7S with tungsten carbide head for meticulous applications, round nozzle R6 for regular paints and varnishes, 700ml container, rechargeable battery, 24V with shoulder strap, charging unit, viscosity measuring cup and box
- Large range of accessories available
- Gun can spray the contents of approximately six containers (4.2 litres) before battery requires re-charging

K320 - 100 Watt Spray Kit

- Kit includes Krebs 35T airless spray paint sprayer fitted with tungsten carbide cylinder and round jet nozzle R8
- Suitable for materials of high viscosity, latex water based paints, undercoatings and sealers
- Immersion measuring cup to determine viscosity of paints and lacquers

K45T - 120 Watt Spray Gun

- Heavy duty, industrial unit for big tasks
- Quick clean pump assembly
- Chromed steel cylinder valve, true line transmission
- Engineered, balanced handle and tungsten carbide cylinder and piston for prolonged life when used with material containing aggregates

K400 - 120 watt Spray Kit

- Kit contains the K45T spray gun complete with back tainer
- F5S fan nozzle with tungsten carbide head for meticulous work
- F7S nozzle (fitted)
- 1 extra container with lid and viscosity measuring cup
- Bent nozzle extension
- R8 round jet nozzle for water based paints

K360 - 100 watt Spray Kit

- Kit features the K35T complete with: back tainer, F7S nozzle, paint container, viscosity cup and R6 nozzle (fitted)
- Attractive display packaging
