

## European Range of Half-mask Respirators and Cartridges

Our new range of European Respirators offers exceptional comfort, efficiency and performance. They are designed to meet the new Euro standard EN140 and EN143 for filter cartridges. They also meet the requirements of COSHH - Control of Substances Hazardous to Health Regulations 1988

### features include:

- Rolled-edge face-piece for extra comfort and enhanced face-seal efficiency
- Lightweight, engineered design for fatigue-free, long duration wear
- Full range of screw-in filter cartridges protect against a wide range of toxic hazards
- Pre-filter caps & maintenance cards are supplied with each respirator
- "Drooped-snoot" (SR1 only) or front mounted cartridge position
- Head strap retaining points integrally moulded - no leakage risk as with conventional fixings
- Sliding head strap design for "chest parking" when the respirator is not in use

### Limitations of use

- These respirators are NOT FOR USE IN:
- Oxygen deficient atmospheres - for instance BELOW 19% by volume
- Oxygen enriched atmospheres - for instance ABOVE 25% by volume

## TR2, SR1

- TR2 - Twin filter respirator mask
- SR1 - Single filter respirator mask

## Filter Cartridges, Pre-filters and Pre-filter Rings

- TR2CAR - Box of 4 A1 cartridges (TR2)
- TR2PF - Pack of 25 pre-filters (TR2)
- TR2RR - Pre-filter retaining ring (TR2)
- SR1CAR - Box of 4 A1 cartridges (SR1)
- SR1PF - Pack of 25 pre-filters (SR1)
- SR1RR - Pre-filter retaining ring (SR1)

## 1003110 - LANSEC

- Lightweight arc sensitive helmet
- Fully automatic helmet - turns dark as soon as the arc is struck, lightens again when welding stops
- No need to take helmet off to check work
- Fully variable electronic quick change filter lens
- 10 cw shade
- The lens is completely protected from welding splatter with standard size cover plate
- Just press cover plate to turn lens on
- Automatic switch off
- Fully CE approved

1003110  
Lansec

## ES4434LW - Welding Helmet

- Comfortable, adjustable head strap
- Flip up design, leaving both hands free
- Made from high impact plastic
- Complete with splatter and tinted lenses

ES4434LW

## Safety, Welding Goggles, Safety Spectacles, Ear Protectors & Face Shield

- (A) **V1040 Safety goggles - Direct ventilation**  
Safety goggles to CE BSEN 166. Clear carbonate anti-fog lens. Direct ventilation. Impact resistant. For grinding, drilling and cutting
- (B) **V1020 Safety goggles - Indirect ventilation**  
Safety goggles to CE BSEN 166. Clear carbonate anti-fog lens. Indirect ventilation. Impact resistant. For grinding, drilling and cutting
- (C) **V1110 Welding goggles - Flip up**  
Gas welding goggles to CE BSEN 166/169. Flip up green lens with clear protective splatter lens
- (D) **V1210 Safety spectacles with clear lenses**  
General purpose lightweight safety spectacles with clear carbonate lenses to CE BSEN 166
- (E) **V1230 Safety spectacles with green lenses**  
Lightweight safety spectacles with green carbonate lenses to CE BSEN 166
- (F) **V2200 Ear protectors**  
General purpose. Adjustable head band with soft and comfortable ear seals to BS EN352-1 (EP-101 STYLE)
- (G) **V3800 Adjustable Full face shield**  
Adjustable full face shield with 200mm polycarbonate visor. Flip up visor with adjustable head band to CE BSEN 166
